

skin characteristics on the surface of said film to which said foam layer adheres, said skin characteristics enhancing adhesion of said foam layer.

3. (Cancelled)

4. (Cancelled)

5. (Currently amended) The sheet material of claim ~~4~~ 1 wherein said foam layer contains dienepolymers.

6. (Currently amended) The sheet material of claim ~~4~~ 1 wherein said foam layer contains rubbers.

7. (Cancelled)

8. (Currently amended) The sheet material of claim ~~8~~ 1 wherein said top film is a polypropylene film.

9. (Currently amended) The sheet material of claim ~~3~~ 1 wherein said foam layer is non-reactive and free of plasticizers.

10. (Currently amended) The sheet material of claim ~~3~~ 1 wherein said foam layer is

styrene butadiene foam.

11. (Original) The sheet material of claim 2 wherein said foam layer is about 30-40 mils thick.

12. (Original) The sheet material of claim 11 wherein said foam layer is a styrene butadiene foam.

13. (Original) The sheet material of claim 12 wherein said foam layer is free of plasticizers.

14. (Original) The sheet material of claim 13 wherein said top film is about 3 mils thick.

15. (Original) The sheet material of claim 1 wherein said top film is coated with a primer and said foam layer adheres to said primer.

16-31 (Withdrawn)

*cancelled (see p. 1)*
